Backend Basics: Node.js, Express.js, Firebase (Auth, Hosting), JWT, REST API, MongoDB

Tools: Git, GitHub, Figma, Vercel, Netlify, Cloudflare

Soft Skills: Team leadership, collaboration, Communication, Time Management

Projects

1. PlateShare — Community-driven food-sharing platform   **Live | Client | Server**

- Anyone can share extra food instead of wasting it, making giving simple and impactful.
- Users can edit, update, or remove their food listings and stay in control.
- Users can view available food posts and track how many requests each meal has received.

Built With: JavaScript, Tailwind CSS, React.js, Firebase Auth, Node.js, Express.js & MongoDB

2. ToyTales — Interactive Toy Store Platform   **Live | Client**

- Share your own feedback to help others choose the right toy and improve the platform.
- Send your favorite toys as gifts directly to your loved ones for a delightful surprise.
- Update personal info and addresses, and track past orders for accurate delivery.

Built With: JavaScript, React.js, Tailwind CSS, Firebase Auth

3. Coffee Garden — Interactive Café Platform   **Live | Client | Server**

- Order your favorite coffee easily and enjoy timely, fresh delivery.
- Enjoy the best coffee in 4 steps, from premium beans to perfect roasting.
- Coffee Garden values feedback and provides quick, clear support.

Built With: JavaScript, Tailwind CSS, Next.js, Node.js, Express.js & MongoDB
